

FEEDBACK FROM RECENT WORKSHOP
AT
PROCTERS MEDIA

"I really enjoyed the training and thought it was brilliant! I feel a bit more confident about putting together a presentation and presenting in front of others. I feel armed with tips and tricks. I'm pleased we had this training especially I don't have much presenting experience and as a result I find it so nerve racking. Thank you Jack!"

«« »»

"Learning made fun! When it's fun it registers. I feel better equipped and that will add to my confidence. Might even take on "stand up." "

«« »»

"Enjoyed the level it was pitched, with good humour, variety of content and good mix of passive and active exercises. The workshop provided food for thought in using different techniques and gave the opportunity to give them a try."

«« »»

"Found the whole experience refreshing, Introduced tried and tested rules in a new style – very useable and doable. The tutors style was just right considering he had a mixed team and although fun introduced a serious message throughout. Excellent feedback by Jack at the end."

«« »»

"There is no doubt that next time I present my presentation will be better structured, and I will deliver it with greater confidence than the last time. The workshop has therefore been a success. "
